# CURVED STAIRLIFTS

D.K Lift Services work as a UK trade agent for the handicare stairlift products, providing market leading solutions for all stairlift requirements.

The Handicare 2000 Curved Stairlift provides complete versatility complimented with thoughtful design options. The breakthrough design uses twin rails to create the tightest internal and external bends in the stairlift market. Providing such precision, allows more room on the staircase ahead of other stairlift manufacturers. The versatility of the 2000 truly makes it stand out, staircases indoors or outdoors present no challenge thanks to two unique models for either environment.

Handicare's heritage originated in Stockholm, Sweden. Now providing high class, market leading stairlift solutions, they have expanded world wide, across North American, Asia & Europe. Parts, spares and manufacturing is readily available at the UK factory in Swindon.

## INSTALLATION, INSTRUCTION AND AFTER SALES CARE

Our surveyor will advise on necessary building work required prior to installation. The lift will be installed by Handicare trained personnel, who will also give comprehensive training on lift operation and advice on service and maintenance. An Operations and Maintenance manual is given to the user for future reference.

# 2000 CURVED STAIRLIFT

Easy to maintain with a quiet and smooth ride that provides the ultimate in safety and comfort. The 2000 is available in a variety of seat styles and rail color options to match your home décor and personal taste.

## FEATURES

- Each 2000 stairlift rail is designed and manufactured specifically to fit your staircase, ensuring an accurate fit to maximize space for other stair users.
- Folds up easily maximising the space for family members to go up and down the stairs as needed when not in use.
- Ergonomic and intuitive to use, the joystick on the armrest smoothly operates the 2000.
- Remote control included, allowing you to send for your stairlift at the touch of a button. Two are included with your 2000 with holders for both the top and bottom landings.
- The 2000 can be combined with a powered hinge to prevent the track from obstructing a doorway at the base of the stairs.
- The 2000 has a battery backup feature, in the event of a power outage your lift will continue to function for up to ten rides.
- We will install charging points conveniently located at the top and bottom of stairs for pain-free recharging.

- Easy-to-use retractable seat belt, a standard feature that provides added security when safely seated in your stairlift.
- Equipped to weather the great outdoors, the 2000 is UV protected and weatherproof to withstand the elements.
- We include a waterproof cover so your 2000 is always dry and ready to use.
- The 2000 is fitted with multiple safety sensors which stop the stairlift whenever it runs into an obstacle.
- With 80 degrees of tilt, you face more of your top landing providing greater security when getting up from your 2000 stairlift.

## OPTIONAL FEATURES

- Optional powered footrest allows you to fold and unfold the footrest without having to bend down.
- Optional powered swivel makes it easy to get off the lift at the top of landings. Simply hold the toggle switch in the direction of the landing to turn the seat for a controlled departure.

## FREQUENTLY ASKED QUESTIONS

**Q: Can this stairlift be installed on my staircase?**

Yes, our 2000 Curved Stairlift provides a suitable solution for each setting regardless of whether the stairs are narrow, steep, curved or long, indoor or outdoor.

**Q: Does it take major renovation to install a stairlift in my home?**

No, the 2000 Stairlift is simply installed onto the stair treads. Because it is fixed to the staircase, you don't have to worry about any further modification to your home.

**Q: Can others still use my stairs?**

Compact and ultra slim, the 2000 Stairlift can easily be folded up when not in use to allow for easy pass-through for family members and friends.

**Q: What happens during a power failure?**

No reason to worry. Your Handicare stairlift will use its batteries to remain operational and can still be used for at least 10 rides up and down the stairs.
